## Disasters:

### Declaration Number

FEMA-1391-NY

## Narratives

### Disaster Damage:

The Lower Manhattan Development Corporation was created in the aftermath of September 11, 2001 by Governor Pataki and then-Mayor Giuliani to help plan and coordinate the rebuilding and revitalization of Lower Manhattan, defined as everything south of Houston Street. The LMDC is a joint State-City corporation governed by a 16-member Board of Directors, half appointed by the Governor of New York and half by the Mayor of New York. LMDC is charged with ensuring Lower Manhattan recovers from the attacks and emerges even better than it was before. The World Trade Center attacks resulted in a staggering loss of life and extensive physical destruction to Lower Manhattan. Approximately 30 million square feet of commercial space was damaged or eliminated, and seven buildings in the World Trade Center site were completely leveled. Critical transportation infrastructure was disrupted or obliterated, including the PATH station, the 1/9 subway line and sections of Route 9A and Church Street. Vehicular access to the area south of Canal Street was prohibited for seven days. As a result of the tragedy, residential occupancy rates in the immediate region dropped to 60%, over 100,000 jobs were displaced, and small and large businesses struggled to maintain viability. The World Trade Center attacks inflicted widespread destruction upon the energy (electric, gas, and steam) and telecommunications utility infrastructure, resulting in extensive disruptions in service to the business and residential communities of Lower Manhattan. The energy and telecommunications firms responded rapidly in the aftermath of the disaster to provide emergency and temporary services and they are currently working to restore permanent service to all customers located within Lower Manhattan. The costs to deliver emergency and temporary services and to rebuild damaged infrastructure for permanent service delivery are considerable and have been borne by the affected utility service providers to the extent not covered by their insurance providers or funds from other sources such as lawsuits.

### Recovery Needs:

The Lower Manhattan Development Corporation (LMDC) has prepared the following Partial Action Plan with regard to the \$783 million federal appropriation administered by the United States Department of Housing and Urban Development (HUD) for damaged properties and businesses (including the restoration of utility infrastructure) as well as for economic revitalization related to the terrorist attacks at the World Trade Center. LMDC received a separate \$2 billion federal appropriation through HUD for the World Trade Center disaster recovery and rebuilding efforts. This Plan details LMDCs proposed expenditure of \$750 million to fund a program to restore, rebuild, and revitalize utility infrastructure in Lower Manhattan. The program will be administered by Empire State Development (ESD), New York States economic development agency, in cooperation with the New York City Economic Development Corporation (EDC), and in consultation with the Lower Manhattan Development Corporation. This plan also details LMDCs proposed expenditure of \$33 million of that appropriation to fund a program to assist businesses in Lower Manhattan that suffered disproportionate loss of life as a result of the attacks on September 11, 2001. The program will be administered by Empire State Development (ESD), New York States economic development agency in cooperation with the New York City Economic Development Corporation (EDC).

**Activity Description:**

---- Category 2: Permanent Restoration and Infrastructure Improvements ---- On February 3, 2011 a partial action plan amendment reducing the allocation for this Category by \$122,966,585 from \$330,000,000 to \$207,033,415 was approved by HUD. Eligible costs under this category are those incurred to permanently replace, restore, and enhance the equipment and infrastructure to deliver energy and telecommunications utility services. Where appropriate and cost effective, infrastructure restoration using current technology will likely exceed the service quality and/or capacity of the pre-September 11, 2001 systems being restored. Technology advances over the past two decades have brought significant improvements in utility infrastructure capacity and capabilities, particularly in telecommunications. In certain cases, restoration of permanent service in Lower Manhattan will reasonably entail the replacement of some infrastructure with more modern or resilient technology options. These options may improve the system by increasing capacity, service quality and/or public safety as compared to September 10, 2001, levels at a marginally higher cost than that of prior generations of equipment or other options. Alternatively, companies may desire to implement significant infrastructure improvements at a greater

than marginally higher cost. ESD/EDC, in consultation with DPS staff, will evaluate the infrastructure improvement for its delivery of technological currency, increased capacity and/or capability, and improved resiliency. The applicant must demonstrate how local government and the business community were consulted in the development of the infrastructure improvement plan, and how that plan reflects the priority needs of Lower Manhattan redevelopment and public safety. ESD/EDC consultations with local government and the business community have clearly identified priorities for telecommunications infrastructure improvement that must be incorporated into any proposal in order to qualify for funds under Category 2. (This Partial Action Plan does not impose any similar requirements on energy services providers.) Telecommunications infrastructure improvement must include, prioritized as follows: (1) Plans for development of fully redundant central office capacity; and (2) A self-healing fiber optic ring for the Lower Manhattan service area. Expenditures under this category will be reimbursed at 75% of incurred costs, subject to availability of funds, with the exception of street-related work coordinated with the City as provided under Program Coordination (as described in the Activity Description for Category 1 in the HUD Action Plan), in which case the reimbursement will be up to 100%. Category 2 funding awards will be based on the following criteria: 1) The extent to which the investment reflects the needs of local government and the business community regarding utility infrastructure in Lower Manhattan through: a. increased resiliency of utility service; b. increased capacity of utility service; and c. other benefits of technology and advanced utility infrastructure. 2) The scope of the project proposal given the amount of funding requested. The applicant bears the burden of proving that expenditures in this category provide for infrastructure restoration to similar or enhanced service levels prior to the attacks. Further, the application must clearly identify what was installed as permanent service improvements and restorations and further provide rationales as to why the investment in improved technology is in the best interests of the business and residential customers. Documentation must explain and justify fully why the selected technology is the most cost and quality competitive option available and why such system improvements should be assisted through federal recovery funds. Eligible costs will be reimbursed up to 75% of actual incurred, uncompensated, and documented costs (except street-related work coordinated with the City). Uncompensated costs are those costs borne by the utility service provider after they have diligently and aggressively pursued all insurance recoveries within the terms and conditions of the applicable insurance policies covering their losses. In the event that sufficient funding is not available to meet all applications and submittals made under this category, reimbursement may be limited to such amount per applicant as ESD/EDC determines best meets the objectives of this plan within the established review process. Applicants are encouraged to submit proposals to incur costs for advance review prior to commitment of capital investment. The deadline for submittal of documented incurred permanent service restoration and improvement costs is December 31, 2004. The deadline may be extended at the discretion of ESD/EDC.

### Location Description:

Eligible applicants for this program are limited to investor-owned utility service providers under the jurisdiction of the New York State Public Service Commission (NYSPSC), the Federal Energy Regulatory Commission (FERC), or the Federal Communications Commission (FCC), with service territory in the affected area in Lower Manhattan, that incurred unreimbursed expenditures resulting from impact damage related to the attacks on September 11, 2001. (Note exception to eligibility below.) For the purposes of this program, Lower Manhattan is the area on and south of Canal Street, from the East River to the Hudson River (except for Category 6). Publication of the Partial Action Plan serves as the solicitation for eligible submissions for damage reimbursement from utility service providers. This Plan makes one exception to eligibility requirements above, for funding Categories Four (Construction of Carrier Neutral Lateral Telecommunications Conduit) and Five (Construction of Redundant Fiber Connections to Critical Facilities). Funding under these two categories is not restricted to regulated utilities that suffered damage related to the September 11, 2001 attacks. Eligible applicants under these two categories will be solicited through a Request for Proposals (RFP) process under the plan. Any firm able to demonstrate its qualifications to perform the proposed work may submit a proposal.

### Activity Description:

Pedestrian Bridge over West Street at West Thames Street--The new pedestrian bridge will create an alternate safe crossing of West Street and provide an improved connection between Battery Park City with its open spaces, recreational facilities, residences and commercial buildings and the rest of Lower Manhattan. The bridge will benefit Lower Manhattan residents, workers, and visitors as well as parents and children attending the new Public School 276 that has opened in Battery Park City a few blocks south of West Thames Street. The bridge is expected to be constructed by 2018.

### Location Description:

The pedestrian bridge will span West Street in the vicinity of its intersection with West Thames Street. The eastern landing of the bridge will be to the north of the MTA-owned Brooklyn Battery Garage and the western landing will be in the vicinity of the Battery Park City Esplanade along West Street.

### Activity Progress Narrative:

The construction phase of the West Thames Street Pedestrian Bridge Project is ongoing. The construction manager informed LMDC that a change in the steel bending procedure was required and this will cause delayed delivery of the bridge spans by several months. As a result of this delay the new projected project completion date has changed to late 2018. On site construction of the bridge support structures remains ongoing with no significant delays. LMDC and Battery Park City Authority (BPCA) continue to work with the City of New York to officially name the bridge the Robert R. Douglass Pedestrian Bridge in honor of long time lower Manhattan advocate and LMDC Board member who passed away in December 2016. LMDC paid approximately \$2.5 million toward this activity during the quarter with about \$1.5 million of that amount paid to Minority and Women Businesses. Another \$955,000 was processed and paid within days of quarter end.

**Activity Description:**

LMDC has allocated \$169,580,000 for the East River Waterfront Esplanade and Piers Project, \$139,580,000 in Grant 1 and \$30,000,000 in Grant 2.

The project involves the redevelopment of the East River Waterfront Esplanade and Piers, north of Battery Park and south of East River Park, and would revitalize Lower Manhattan communities and the East River Waterfront. The project will solve a number of issues in the area that hinder the realization of the East River Waterfronts full potential. Such issues include under-utilized spaces (parking lots below the FDR and vacant piers), the absence of sidewalks, and the lack of amenities which dramatically decreases potential visitation to the site. The project will also fill in the missing esplanade in the Lower Manhattan Greenway between Old Slip and Peter Minuet Plaza. Once constructed, the revitalized waterfront would be an approximately two-mile esplanade that includes a mix of open space, cultural and recreational uses, providing a link between the Financial District, Chinatown and the Lower East Side to the waterfront.

As a result of this project, the waters edge will be experienced in new ways along the East River. Improvements to the esplanade are meant to harmonize traditional waterfront uses with new commercial, cultural and community programming and invigorate the area with a fresh, innovative design approach. The Plan provides amenities for passive recreation as well as construction of new sidewalk paving and curbs. The existing bike and pedestrian paths will be improved, expanded, and realigned to provide for unencumbered movement without infringing upon other uses along the esplanade. New pavilions are planned underneath the FDR Viaduct and may accommodate a variety of retail, cultural and/or community uses to complement the public open space experience. The Plan calls for improvements to the FDR Viaduct by cladding the elevated roadway to reduce vehicular traffic noise from above and enhance the ambient lighting below. Several piers on the East River will be transformed into recreational spaces, where active water-related uses would be encouraged alongside passive recreational uses. The project will

include the installation of new railings and site furnishing approximately in the area of Peck Slip to Catherine Slip while creating limited beach access near the Brooklyn Bridge for which \$7,000,000 has been committed by the New York City Council and Borough President's Office.

### Location Description:

The project proposes revitalization of the area running along the East River Waterfront from Battery Park to the south, Pier 42 to the north, and South Street/FDR Drive to the east in Lower Manhattan.

### Activity Progress Narrative:

The East River Waterfront Esplanade & Piers Project continues to progress on schedule. During the quarter the subrecipient, New York City Economic Development Corporation (NYCEDC), continued to perform pre-construction activities for Package 4. NYCEDC reported that the final Request for Proposals for site work was released this quarter.

On Pier 35 the contractor continued to perform construction activities such as expansion joint/concrete pouring, electrical wiring, and structural steel work. The contractor also continued to review shop drawings for future construction at that site. Submittals of shop drawings are now 90% complete.

Procurement of a design contractor for the North segment of the project (located between Peck Slip and Catherine Slip) remains ongoing. NYCEDC expects to issue a Request for Proposals for this segment early next quarter.

Approximately \$1.7 million in reimbursement requests were paid this quarter from activity EREP-0240 in Grant 1. No reimbursement requests were paid from this grant during the quarter.

**Activity Description:**

\$28 million has been allocated for design and construction costs related to improvements of Pier 42 and adjacent areas located between the East River Esplanade to the south and East River Park to the north. This \$2 million allocation in Grant 2 is for planning and design. The scope of the \$19 million allocation in Grant 1 is for design and construction. The specific scope will be dependent on the outcome of the planning process funded by the \$2 million allocation. In general terms, the this project will likely include improvements to the area such as landscaping to increase green open space, public access to the waterfront, improved views of the landscape and NYC harbor, water dependent public activities, expansion of the bike path and greenway, and a variety of park recreational activities.

**Location Description:**

The project proposes revitalization of Pier 42 and adjacent areas located between the East River Esplanade to the south and East River Park to the north.

**Activity Progress Narrative:**

During the quarter New York City Economic Development Corporation (NYCEDC) and the Construction Manager focused on procurement of subcontractors for Phase1A (demolition and abatement) segment of the project. Subcontractors were procured for abatement, demolition, site fencing, rodent control, site trailer and utility hook-up. The construction Manager issued Requests for Proposals for air monitoring, site security. Demolition and Abatement is expected to commence in early next quarter.

Design work on Phase 1B is ongoing. NYCEDC and the construction manager had a meeting with Community Board 3 to discuss plans for the proposed comfort station and Playground at Pier 42. No major issues were raised at the meeting. Biweekly design meetings between NYCEDC and the design contractor are in progress. Coordination meetings with the East Side Coastal Resiliency Project team are also being held to identify any potential coordination issues between the two projects. No reimbursement requests were paid from this grant during the quarter.

**Activity Description:**

**WORLD TRADE CENTER MEMORIAL AND MEMORIAL MUSEUM—**

This activity provides additional funding for planning, design, construction, and exhibitions for the National September 11 Memorial and Memorial Museum at the World Trade Center as described in activity W-MEM-0171 of LMDC grant B02DW360001.

Additional funds are allocated for the following six elements: (a) \$26 million for construction of the Memorial/Museum, (b) \$7.5 million for the Memorial Museum Pavilion, which serves as the entrance to the Museum, to cover costs of construction and fit-out, including expenses relating to security screening, information technology, auditorium, and special features in the area of the signature tridents from the original Twin Towers, (c) \$2.5 million to plan and manage safe public access to the Memorial starting with its opening in September 2011, including creation of temporary visitor orientation and screening facilities, pedestrian safety services, wayfinding signage, construction fencing, bus management, and interim communications systems, (d) \$2.5 million to pay for equipment, media production, and furnishings for multi-media installations at the National September 11 Memorial Museum, (e) \$394,000 for office and occupancy expenses, and (f) \$700,000 to help pay for the 2015 and 2016 productions of Tribute in Light whereby two beams of light rise from near the WTC Site into the sky to honor those lost on September 11 and to celebrate the spirit of New Yorkers who work to rebuild and renew New York City.

**BENEFICIARIES**

The thousands of relatives and friends of the nearly 3,000 victims of September 11, 2001 and February 26, 1993 will benefit from the memorial and museum to honor their loved ones. Others immediately affected by the events, including survivors, area residents and workers, will equally benefit from the project. This project will also benefit the millions of visitors to the Memorial and Museum, which will allow them to honor those who were killed in the

attacks. The Memorial and Memorial Center will foster greater public awareness of the events of February 26, 1993 and September 11, 2001, and their impact on the victims' families, survivors, area residents, New York City, and beyond.

**SCHEDULE**

The Memorial opened on September 11, 2011 and the Memorial Museum opened in May 2014. The construction elements of this activity have concluded and various production elements are expected to be completed in 2017.

**FEDERAL AND OTHER RESOURCES**

The Memorial and Memorial Museum will be funded with a combination of private funds donated by public investment and individuals and groups to the National September 11th Memorial and Museum at the World Trade Center Foundation, Inc (NS11MM). The NS11MM uses its own resources to engage in fundraising for both public sector and private sector funds, and individual donations, to accomplish its mission.

**TOTAL ESTIMATED COST**

In Partial Action Plans 8, 11, 12, and the Final Action Plan, LMDC allocated funds for planning, design, construction, and exhibitions for the World Trade Center Memorial and Museum. This activity provides an additional \$39.594 million to what has been allocated in Grant I.

Partial Action Plan amendments added \$4.594 million to the initial \$35 million allocation including amendments published on February 8, 2012, November 15, 2013, and April 29, 2016 to pay for equipment, media production, furnishings for multi-media installations at the National September 11 Memorial Museum, and additional Tribute in Light productions.

**Location Description:**

Project Area -- The Plan Project Area s located in Lower Manhattan on two sites:(i)the WTC Site, an approximately16 acre super block, bounded by West, Vesey, Church and Liberty Streets; and (ii) two adjacent city blocks south of the WTC Site (one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets), Washington Street between Liberty and Cedar Streets, and subsurface portions of Liberty Street and other streets in and around those blocks (collectively, the "Southern Site").

**Activity Progress Narrative:**

This activity was established in support of the World Trade Center Memorial and Memorial Museum in furtherance of the overall World Trade Center Plan. Over the years LMDC has provided specific support to the National September 11 Memorial and Museum organization through a subrecipient agreement. The final reimbursements associated with that subrecipient agreement were made in the last quarter.

Approximately \$5,000 was spent during the third quarter of 2017 in support of the World Trade Center (WTC) plan including legal costs related to site real estate and traffic matters on the WTC Site.

**Activity Description:**

LMDC has already allocated \$60,004,000 for the planning and development of the World Trade Center Performing Arts Center (WTC PAC) in Grant 1. This allocation of \$100,000,000 for the WTC PAC will provide for construction costs and PAC-related strategic planning efforts. Approximately \$1 million would be used to support (i) the creation and administration of a non-profit entity dedicated to the PAC (PAC, Inc.) that would be governed by a Board of Directors and operate with some key staff, and (ii) strategic planning costs related to further study and development of the PAC. The bulk of the allocation, \$99 million, would be used for the future construction costs of the PAC, subject to successful achievement of strategic planning milestones before the end of calendar year 2011, which must include (i) the creation of the non-profit PAC, Inc., (ii) the constitution of a PAC, Inc. Board of no less than five members, and (iii) funding of at least \$25 million committed by those PAC, Inc. Board members. It is contemplated that the PAC, Inc. Board would later raise additional private funds to supplement the federal funds being committed by LMDC.

This proposed cultural building on the rebuilt WTC Site will provide a variety of important uses as part of the overall redevelopment plan. The PAC will help create a world class visitor destination that will contribute to the economic development of the site and the area, while improving the quality of life for those who live and work in Lower Manhattan. Programming will be broad and diverse, and will serve both businesses and residents. The Performing Arts Center is proposed to contain a 1,000 seat theater venue that under its current design will house the Joyce Theater as well as a 200+ seat second theater. Public spaces and activities that will be part of the Performing Arts Center could include educational programs for school groups and community workshops. The Performing Arts Center is also expected to house significant rehearsal space for both in house rehearsals as well as for the large arts community in New York and specifically in Lower Manhattan.

The work on the Performing Arts Center, which began in 2004, is continuing and includes activities such as planning, determination of subgrade requirements, and coordination with the Port Authority of New York and New Jersey on the WTC site.

### Location Description:

PROJECT AREA--The WTC Plan Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super block, bounded by West, Vesey, Church, and Liberty Streets; and (ii) two adjacent city blocks south of the WTC Site (one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets), Washington Street between Liberty and Cedar Streets, and subsurface portions of Liberty Street and other streets in and around those blocks (collectively, the "Southern Site").

### Activity Progress Narrative:

During the third quarter of 2017, two reimbursement requests in the amount of \$702,751 were paid to the Ronald O. Perelman Performing Arts Center organization (PAC, Inc.) from this activity related to ongoing design work. Three additional reimbursement requests totaling \$1,821,171 were received in this period, processed and submitted for payment, which is expected in the upcoming quarter.

The PAC, Inc. continues to move forward with their Performing Arts Center design work. During this period, the PAC, Inc. management team selected a firm to provide construction management services to the organization as this project begins to transition to the construction phase.

The Ronald O. Perelman Performing Arts Center will be a public space, with an estimated 100,000+ attendees for performances alone, each year. In addition to usage during its performing arts programming, The Perelman will host and produce a full slate of other public activities. It will be a local resource for the large and growing downtown community, providing arts, education and programming for children and adults from early in the morning to late at night. Workers and residents of Lower Manhattan will attend classes and seminars at The Perelman, have discussions with artists, and attend public music performances. It will be a social gathering location, a place where local businesses and community groups can hold meetings, where artists and visitors co-mingle, where New York and Downtown meet. Located at a transit hub and near one of the most visited and significant sites in New York City, The Perelman will also serve the greater New York City area, with visitors for performances and other programming arriving from all parts of NYC, New Jersey, Long Island and around the world. This project is proceeding on schedule with a design expected in 2018.

### Activity Description:

NYC DOT will develop and implement a Permit Management System for Lower Manhattan. NYC DOT issues nearly 250,000 street work permits a year, 12,000 of which are for Lower Manhattan. These permits govern access to public streets and sidewalks by private entities, and are needed for various activities such as temporary closing a sidewalk or street lane for construction, installing new fiber optic lines, or repairing water mains.

In the 1980's, DOT's implemented a Management Oriented Street Attribute Information Control System (MOSAICS) to manage the complete life cycle of a street work permit. MOSAICS is now outmoded and its information concerning existing permits is not available to utilities and the public. NYC DOT will develop and implement a Permit Management System that will replace the MOSAICS system in Lower Manhattan. The benefits associated with the Lower Manhattan Permit Management System include the following (a) map-based system available on the Internet that displays street work to allow the public and those seeking permits to view all work underway and planned, (b) reduction in applicants' data entry errors during application process, (c) reduction in average permit approval time from three business days to one business day, (d) ability to monitor status of permits online, and (d) improved conflict resolution and coordination of planned street construction work

### Location Description:

Lower Manhattan Streets and Sidewalks

### Activity Progress Narrative:

The New York City Department of Transportation (DOT) is currently engaged in Phase 2 of the project in which DOT is replacing the Management Oriented Street Attribute Information System (MOSAICS) with a web based, map integrated permit management system. The permit management system benefits government and private entities that need street and sidewalk permits to implement their Lower Manhattan programs and projects. During the quarter, holiday embargo enhancements (early warnings to permittees selecting embargoed streets) were deployed into production. In addition, DOT is engaged with utility companies such as National Grid and Verizon to begin using the new online permitting system to apply for permits instead of the old Electronic Data Interchange (EDI).

During the quarter, we processed reimbursement requests total over \$780,000 that we expect to be paid shortly. The project is on schedule for completion by December 2017

<b>Match Contributed</b>	\$0.00	\$0.00

**Activity Description:**

The Partial Action Plan reserved \$17.5 million, or 2% of the total fund, for costs related to ESD/EDC administration of the program as well as LMDC's oversight. The Plan reserves \$3.5 million for program monitoring costs by LMDC and \$10 million to be administered by ESD and LMDC for program management costs. Program administration costs are anticipated for program publication, review of proposed infrastructure investments, environmental review clearance, financial evaluation and processing of funding requests, and auditing of disbursed funds.

The City of New York Department of Transportation system issued approximately 12,000 street work permits every year in Lower Manhattan. These permits are needed for various activities such as temporarily closing a sidewalk, installing new fiber optic lines, and repairing water mains. The Plan sets aside \$4 million to upgrade the City's permit and construction administration system known as the MOSAICS system, the system that is used to manage the complete life cycle of a street work permit. Upgrading the MOSAICS system will facilitate and improve permit administration, construction planning, and program audit functions for the level of work proposed by the Partial Action Plan.

The replacement for the MOSAICS system provides the following six benefits:

- (1) A map-based system available on the Internet that displays street work to allow the public and those seeking permits to view all work underway and planned
- (2) Reduction in applicants' data entry errors during application process
- (3) Reduction in average permit approval time from three business days to one business day
- (4) Ability to monitor status of permits, online
- (5) Electronic storage of all information regarding permits in one location
- (6) Improved conflict resolution and coordination of planned street construction work

Any unused funds from Program Administration may be reallocated to meet funding needs in other categories.

### Location Description:

Lower Manhattan

### Activity Progress Narrative:

LMDC continues to maintain a small staff and office space to carry out its planning and community development activities, including project oversight, environmental and regulatory compliance monitoring, project coordination, and payment processing. During the third quarter of 2017, LMDC staff monitored the activities of more than 50 subrecipients and consultants, amended two contracts, and completed work on six subrecipient projects, while distributing approximately \$8.1 million in payments to subrecipients and consultants furthering the redevelopment of lower Manhattan. No administrative costs were charged to this activity for the quarter as all \$368,000 in administrative casts were charged to the administrative activity in Grant 1.

The total administrative spending continues to fall within our administrative budget, and on a cumulative basis, administrative costs continue to remain far less than the 5% allowable for administrative expenses.

**Activity Description:**

The former Deutsche Bank Building at 130 Liberty Street was severely damaged on September 11, 2001 and was unoccupied for several years. LMDC acquired the 130 Liberty Site in 2004. Partial Action Plan 7 and its amendments provided funding for the acquisition of the property in August 2004 as well as subsequent costs to insure, manage, monitor, abate and deconstruct the building at the site. The costs associated with the abatement and deconstruction exceeded the amounts allocated in Partial Action Plan 7. The amended partial action plan S-2 initially allocated \$52,500,000 within HUD Grant B02DW360002 for the 130 Liberty Street deconstruction Program under this activity 130L-S2-0171. Subsequent amendments increased the allocation in this activity to \$59,925.

LMDC successfully obtained financial contributions from the prior insurers of the building in accordance with the Deconstruction Funding and Settlement Agreement and Deutsche Bank related to the cost of abatement of hazardous material that existed in the building before September 11, 2001. These contributions were applied to abatement and deconstruction costs incurred. In 2015 and 2016 LMDC successfully recovered costs totaling \$40,000,000 for the 130 Liberty Deconstruction Program from the general contractor through a litigation settlement agreement. These recovered costs have been reallocated towards other projects within this grant thus reducing this activity budget from \$59,925,000 to \$19,925,000.

**Location Description:**

The Project Area is located in Lower Manhattan on two sites: (i) the WTC Site, an approximately 16 acre super-block, bounded

by West, Vesey, Church, and Liberty Streets; and (ii) the adjacent two city blocks south of the WTC Site, one bounded by Liberty, Washington, Albany and Greenwich Streets, and the other bounded by Liberty, West, Cedar and Washington Streets, and a portion of Liberty Street between those parcels and the WTC Site (collectively, the Southern Site).-- Specific parcels acquired consist of (a) 130 Liberty Street, on which the Deutsche Bank building is situated (the 130 Liberty Site), (b) 155 Cedar Street, on which the St. Nicholas Church was situated (the Church Site), and (c) 140 Liberty Street. All of the structures situated on these parcels were destroyed or severely damaged on September 11, 2001. The acquisition of the Church Site and the Milstein Site, are the subject of another partial action plan.

### Activity Progress Narrative:

During the third quarter of 2017, approximately \$64,000 was spent from this activity most of which was for legal costs associated with the 130 Liberty Street project and the property itself. The remainder of the spending was for 130 Liberty Street site maintenance and utilities.

The Port Authority of New York and New Jersey (PANYNJ) has assumed ownership of the northern portions of the "Southern Site" that includes the below grade Vehicular Security Center with Liberty Park above it and the Greek Orthodox Church. Part of the 130 Liberty Street site is being used by the PANYNJ while the southern-most portion serves as a public plaza on a temporary basis until more permanent plans are implemented.

Tables, chairs, benches and various plantings have been placed on the plaza portion of the site for public use as we contemplate other programming that would further benefit residents, workers and visitors to the area.

**Activity Description:**

The New York City Department of Parks and Recreation will work with TheBattery Conservancy (TBC) a not-for-profit educational corporation created in 1994 for the purpose of rebuilding and revitalizing Battery Park, a 25-acre public park at the southern tip of Manhattan. Funding will support the construction of the new and expanded playground (the "PlayScape") at The Battery. The PlayScape will be located on the eastern side of the park, between State Street and South Street, which currently houses a playground built in the 1950s. The new design expands the playground footprint to 60,000 square feet (one of the largest below 42nd Street). The PlayScape will address the open space needs of thousands of students in Lower Manhattan, and is intended to serve as a model for the innovative integration of water management into flood zone playgrounds.

This project is planned pending a contract execution.

**Location Description:**

The playscape will be on the eastern side of The Battery Parkbetween State Street and South Street.

**Activity Progress Narrative:**

During the quarter, New York City Economic Development Corporation (NYCEDC) and the Construction Manager focused on procurement of subcontractors for Phase1A (demolition and abatement) segment of the project. Subcontractors were procured for abatement, demolition, site fencing, rodent control, site trailer and utility hook-up. The construction Manager issued Requests for Proposals for air monitoring, site security. Demolition and Abatement is expected to commence in early next quarter.

Design work on Phase 1B is ongoing. NYCEDC and the construction manager had a meeting with Community Board 3 to discuss plans for the proposed comfort station and Playground at Pier 42. No major issues were raised at the meeting. Biweekly design meetings between NYCEDC and the design contractor are in progress. Coordination meetings with the East Side Coastal Resiliency Project team are also being held to identify any potential coordination issues between the two projects. No reimbursement requests were paid from this grant during the quarter.

**Activity Description:**

The Downtown Boathouse is an all-volunteer non-profit organization founded over 20 years ago that is dedicated to providing free public access to the harbor in New York City through public kayaking programs. The Downtown Boathouse currently runs free kayaking programs on Pier 26 in Tribeca. The programs serve more than 20,000 people each year, including visitors from more than 130 countries. Working with Manhattan Youth Recreation and Resources, Inc., funding will be provided to purchase 25 new kayaks.

This project is planned pending a contract execution.

**Location Description:**

Pier 26 in Tribeca

**Activity Progress Narrative:**

During the third quarter of 2017, LMDC funding allowed Downtown Boathouse to acquire 28 new kayaks for their free public kayaking program, which is by far their most popular program for both adults and children. In addition to offering free and safe public access to the New York Harbor, the program also serves to educate Lower Manhattan communities about the progress that has been made in cleaning up the Hudson River. Over 30,000 people benefited from the kayaking program in the 2017 season, and the Lower Manhattan community will continue to enjoy Downtown Boathouse's services when the kayaking season resumes in 2018.

The final and only reimbursement of over \$14,000 was paid to Downtown Boathouse this quarter, bringing the project to completion.

**Activity Description:**

The Pier 42 project is part of the East River Waterfront master plan, and aims to create public spaces in underutilized and inaccessible/abandoned areas on the waterfront that will complete the greenway around Lower Manhattan. \$16 million had previously been allocated for the Pier 42 project, \$2 million of which already exists in Grant 2 for planning and design work. The original \$14 million allocation is in Grant 1 for costs associated with design and construction, including the demolition and abatement of an existing shed which has been increased to \$19 million and supplemented by this \$7 million allocation. . The specific scope of this \$7 million allocation within Grant 2 will be dependent upon the outcome of Pier 42 planning and design work but will likely include improvements to the area such as landscaping, lighting, and the build out of a playground and comfort station area specified in the master plan.

This project is planned pending a contract execution.

**Location Description:**

Project proposes to revitalize Pier 42 and adjacent areas between the East River Esplanade to the south and the East River Esplanade to the north. (Near the Jackson Street and South Street intersection.)

### Activity Progress Narrative:

No reimbursement requests were paid from this grant activity during the quarter. The funds allocated within this activity will most likely be made available to NYCEDC for construction once a design has been completed and approved.

**Activity Description:**

Founded in 1996, The Flea Theater (The Flea) is one of the leading Off-Off Broadway theatres. The Flea's new three-theatre complex located at 20 Thomas Street will increase the Flea's capacity to support artists and draw audiences to its annual productions, and will enable the Flea to develop a new partnership initiative that will provide subsidized rental space to other performing arts and community organizations in Lower Manhattan. Funding will support the new theater construction project, scheduled to be completed in June 2017. The Flea has secured over \$7,500,000 in private funding and over \$10,000,000 from public sources including the City Council, the Borough President's Office, Assembly Members and the State Council on the Arts towards this \$20 million project.

This project is planned pending a contract execution.

**Location Description:**

20 Thomas Street, NY NY

**Activity Progress Narrative:**

During this quarter, The Flea Theater (The Flea) had inaugural stage performances open to the public in the new facilities' three theaters (The Sam, The Siggie and The Pete). Over 45 % of its audience members are 35 and younger which is rare for this industry. In addition, The Flea had its grand opening of their new facility on 20 Thomas Street. The September grand opening was a ribbon cutting ceremony featuring The Flea founders Sigourney Weaver and Jim Simpson.

The Flea offers apprentice-style Resident Artist Programs for emerging actors, directors, writers, and small companies that are unique to the field. The Resident Artist Programs are free and open to all through audition or application.

The Flea was paid in over \$1.1 million in reimbursement requests this quarter. LMDC anticipates receiving the remaining reimbursement requests over the next few months.

The project objectives have been successfully met as the theater has opened for business.

**Activity Description:**

God's Love We Deliver (GLWD) is a non-profit organization in New York City that cooks and delivers meals, individually tailored by a Registered Dietitian Nutritionist, to people living with severe illness. Funding from LMDC will help complete the construction of its new office space located in the Michael Kors Building in SoHo. GLWD raised over \$35 million towards the overall project budget from NYC and private sources, leaving a small balance to complete the project. LMDC funding would be designated towards various capital improvements necessary to complete the project that may include new technology infrastructure, kitchen equipment, and furniture.

This project is planned pending a contract execution.

**Location Description:**

166 Avenue of The Americas (Soho)  
Serving individuals in need throughout Lower Manhattan

**Activity Progress Narrative:**

During this quarter, we completed the processing of the reimbursement request for God's Love We Deliver (GLWD) and paid the full amount of their grant \$500,000. GLWD cooks and delivers 1.7 million free meals annually for people who are too sick to shop or to cook for themselves in New York City with more than 90% of their clients living below the federal poverty line.

LMDC funded a portion of the electrical work associated with the acquisition and installation of an emergency standby generator and automatic switch gear under GLWD Building Expansion & Improvement Project. The emergency standby generator will help ensure that, in the event of a power outage, GLWD life-saving services will not be cut off to their critically ill clients, their children and caregivers. The grant objectives have been met and the project has been completed. This payment will conclude the grant funding and this project will now be move to inactive status.

**Activity Description:**

Hudson River Park Trust (HRPT) was created in 1998 to design, build, and operate a public park along the Hudson River waterfront. Hudson River Park begins at Battery Place and extends north for five miles to 59th Street. LMDC had previously expended over \$72 million towards development of this park.

Funding is intended to complete Segment 3 of Hudson River Park, which runs from Chambers Street to West Houston Street and includes two public recreational piers (Piers 25 and 26), an ecological pier, and an adjacent upland park. This project will cost approximately \$30,000,000 to complete the unfinished areas of Pier 26, the platform between Piers 25 and 26, and the upland park area adding a new deck, landscaping and a new estuarium. The City of New York and Citigroup each plan to contribute \$10,000,000 to the project.

This project is planned pending a contract execution.

**Location Description:**

The west side of Lower Manhattan between Chambers Street and West Houston.

**Activity Progress Narrative:**

During the quarter Hudson River Park Trust (HRPT) and the design contractor continued to work on the design development phase of the project. HRPT also executed a sub-contract with a cost estimating consultant. No payments have been made to date from this activity as HRPT is using funding from other sources at this stage of design. The project is on schedule.

**Activity Description:**

The Jackie Robinson Foundation (JRF) was established in 1972 by Jackie Robinson’s wife, Rachel Robinson, to further Mr. Robinson’s legacy. JRF is requesting funding from LMDC to support the construction of a new museum in Lower Manhattan to serve as a permanent tribute to Jackie Robinson’s pioneering legacy and his role as a catalyst for the American Civil Rights movement. The 18,500 sq. ft. museum, planned for 75 Varick Street, will chronicle Mr. Robinson’s achievements placed within the context of United States history from Mr. Robinson’s birth in 1919 to the present. The City of New York has committed \$2,600,000 towards this \$25,000,000 project and over \$18,500,000 of private funding has been committed. This project is planned pending a contract execution.

**Location Description:**

75 Varick Street, NY NY

**Activity Progress Narrative:**

LMDC has allocated up to \$1 million for the Jackie Robinson Museum (JRM), however, little progress has been made regarding the execution of the subrecipient agreement. LMDC awaits project progress and financial information from the proposed grant recipient.

**Activity Description:**

Lower Manhattan Headquarters (LMHQ) is a new 14,000 square foot office space located at 150 Broadway intending to serve as a central meeting place for members of the creative, tech, non-profit, civic and marketing communities in Lower Manhattan. Meeting space at the LMHQ is being made available to the public at below-market rates. LMHQ, which opened to the public in June 2015, will receive funding to reduce start-up costs in the form of a rent subsidy through March 2018. This project is planned pending a contract execution.

**Location Description:**

150 Boradway, 20th Floor, NY NY

**Activity Progress Narrative:**

During the 3rd Quarter of 2017, the Alliance for Downtown New York Lower Manhattan Headquarters has been planning programming for the fall and 2018 season. In addition, they launched a partnership with Open House New York to bring a summer-long public program called “Conversations on the City” to the space. LMHQ also hosted Pace University’s STEM Camp graduation program, which included a graduation ceremony run with Emblem Health and two half-day programs where Pace University’s Small Business Advisor Program used the space to meet with clients.

Nonprofit New Women New Yorkers hosted a public event at LMHQ named “Stories that Move Us” about stories on

young women immigrants. Computer Science for All and Upperline School of Code have also hosted events and meetings in the space.

Over the last quarter, LMHQ has increased social media followers, number of rental events, and has had an additional 13 non-profits and city agencies use the space. LMHQ received \$42,855 during the quarter with an additional \$14,285 currently being processed, to be paid at the beginning of the next quarter.

Awaiting Contract Approval

Manhattan Youth Recreation and Resources, Inc. (Manhattan Youth) provides childcare and academic, recreational and cultural activities to individuals and families who live or work in Lower Manhattan, regardless of their income. Currently, Manhattan Youth runs seven downtown after-school programs that are either free or offered at affordable rates serving over 1,200 children daily. In addition, Manhattan Youth runs a senior program offering activities including free swim to 600 seniors in Lower Manhattan. LMDC funds will support up to two years of Manhattan Youth's afterschool and senior programs to keep those programs affordable and available to Downtown families and seniors.

This project is planned pending a contract execution.

**Location Description:**

120 Warren Street, NY NY

**Activity Progress Narrative:**

During the third quarter of 2017, Manhattan Youth continued to serve over 1,000 children in six public Lower Manhattan schools, providing 340 afterschool programs every school day from 3 to 6 pm. Manhattan Youth offers over 100 diverse activities taught by certified instructors for every age group, including swimming, soccer, ceramics, music, dance, martial arts, and science.

Manhattan Youth also continued to implement its free Senior Swim program, offering exclusive use of their

swimming pool at the Downtown Community Center every Monday through Friday at noon for a variety of aquatics activities, including swimming lessons and bi-weekly aerobics classes. Manhattan Youth received over \$166,805 in reimbursement this quarter for the continuation of these programs. Another reimbursement requests for over \$138,201 was charged to this activity at the end of the quarter and paid to the subrecipient after quarter end. The project continues to move forward on schedule.

**Activity Description:**

Founded in 1967, the South Street Seaport Museum (SSSM) is a non-profit cultural institution located in a 12 square-block historic district on the East River in Lower Manhattan. SSSM requests funds to support the development of an new 11,000-square foot Educational Community Center; an elevator installation; and new electrical, lighting, HVAC, fire safety, and security systems at the Thompson warehouse at 213-215 Water Street. The proposed new Center would help support the Museum's programs and exhibitions and provide flexible multi-use programmable community spaces to the Seaport and Lower Manhattan. SSSM has secured \$2,600,000 from FEMA and \$1,000,000 from the City of New York for this \$8,400,000 project. This project is planned pending a contract execution.

**Location Description:**

207-215 Water Street NY NY

**Activity Progress Narrative:**

LMDC has allocated \$4.8 million in grant funds for planning and related building improvements however, the overall project has stalled. Further details are being sought before any consideration will be given to moving towards the execution of a subrecipient agreement.

**Activity Description:**

University Settlement (US) is dedicated to improving the life circumstances of low-income people living on the Lower East Side. It serves a largely immigrant community by providing adult literacy classes, mental health counseling, child care, housing assistance, job training, after-school and summer camp programs, youth development, senior services, arts programs, and a credit union. Funding will support improvements to the Houston Street Center, a 42,000 sq. ft. community center that is co-owned and operated by US and the Chinatown YMCA, as well as improvements to the US headquarters at 184 Eldridge and the Speyer Hall Theater.

This project is planned pending a contract execution.

**Location Description:**

273 Bowery Street and 184 Eldridge Street NY, NY

**Activity Progress Narrative:**

Over the last quarter, repairs have continued to enhance safety at two locations for University Settlements Society (USS). Improvements have consisted of elevator extensions, boiler and heating system upgrades to reduce utility costs, and an upgrade of USS performance space. Over \$11,000 is expected to be paid in the next quarter to USS and a \$117,000 reimbursement request is currently being reviewed.

University Settlement Society’s headquarters, 184 Eldridge Street is in the process of upgrading their HVAC system which will allow for further success of their many programs. At this location, Lower Manhattan residents are

provided a variety of childhood development programs year round; including the Butterfly program which supports the mental health of children under the age of 5 and their families. Located at Eldridge Street are other childhood programs geared for pregnant women, and children of different ages. In addition, over the 3rdquarter, 184 Eldridge Street hosted Mental Health First Aid Certifications and a Career Fair for individuals interested in finding employment in early childhood education. Eldridge Street saw the complete upgrade to their performance center Speyer Hall. Speyer Hall hosts The Performance Project: an arts program encompassing public performances, education, and community outreach. Throughout the entire space, 36 non-business organizations and 2,678 participants have benefited from Eldridge Street programming.

At the 273 Bowery location, the programming involves a wide variety of activities including fitness, swimming, dance art and new media all tailored to adults ages 60 plus. The Bowery Location also hosts The Creative Center, which brings creative arts to people living with chronic illness throughout all life stages. Overall, 114 non-business organizations have benefited from the Bowery location. With its pool, exhibition space, and rental spaces, the Houston Street Center at 273 Bowery has continued to host programming and social events in their recreational space, and conference rooms.
